

IOS 3500

**IS DIGITAL DENTISTRY CHANGING THE WAY
YOU PRACTICE???**

IOS 3500

IOS-DIGITAL CAPTURE AND DISPLAY
CAD-DIGITAL DESIGN
CAM-DIGITAL MANUFACTURING

IOS 3500

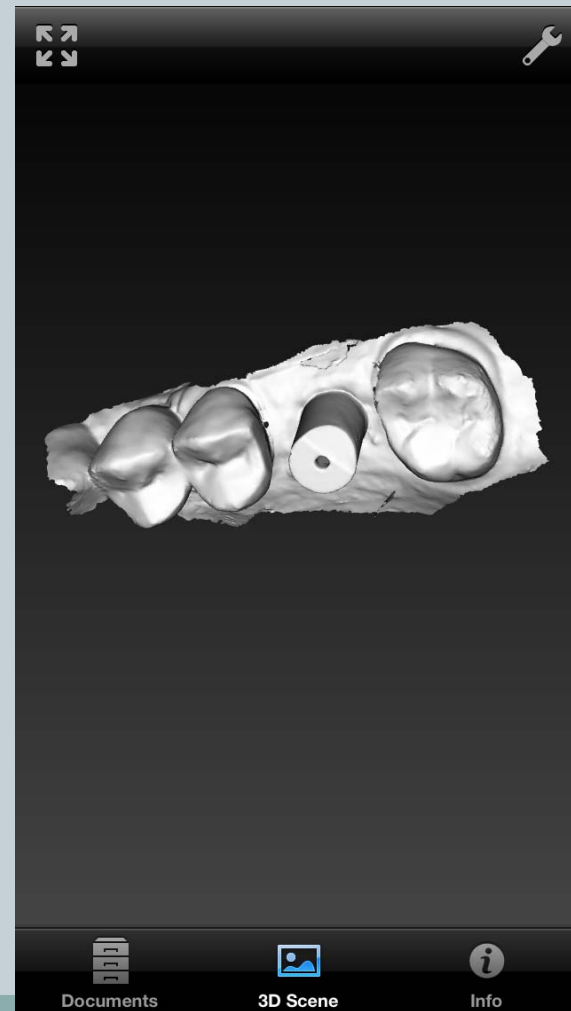

**3-D INTRAORAL SCANNERS ARE
REVOLUTIONIZING THE WAY WE TAKE
IMPRESSIONS.**

**THIS EXCITING NEW TECHNOLOGY, DIGITAL
IMPRESSIONS, APPLY TO IMPLANTS.**

IOS 3500

- Picture of scan body on #14.

IOS 3500

- **Once the digital file is obtained, it can be opened in implant or surgical planning software.**

IOS 3500

- This is what can be done with using this new technology
 - Guided Surgery
 - Temporary screw-in abutments
 - Final custom abutments
 - ✦ Titanium
 - ✦ Zirconium
 - Final crown
 - ✦ PFM
 - ✦ Zirconia
- IOS decreases chair times. In addition trying to maintain and attract new patients, the patient “WOW” factor can’t be matched.
- Utilizing screw-in temps will improve the gingival architecture in the esthetic zone.
- Utilizing screw-in temps instead of flippers.
- Utilizing screw-in temps in the posterior can make final abutment placement easier.

IOS 3500

**TOGETHER EVERYBODY ACHIEVES MORE.
THE DOCTORS THAT USE ME WILL BE MORE
SUCCESSFUL.
